# ABOUT US

Zoic came into existence in the year 1990 with an innovative thought to take “AYURVEDIC MEDICINES “ to the realms of scientific research, development and production.

ZOIC products are a judicious mix of Proprietary and Shastric (classical or generic) medicine. ZOIC's proprietary medicines have been developed after careful study and trials. These products have filled some of the gaps that Shastric products do not address. ZOIC endeavours to manufacture Shastric products in the true Ayurvedic tradition. This classical approach has been handed down the ages. The Book of Reference is followed with reverence and the methods employed are purely traditional.

Our Products address almost all ailments, cater to all ages. Our business operations spread all over India. Our supply chain is through Redistribution Stockists in various states. We have a sturdy QMS system which implements the Total Quality Management in our entire group concerns.
